

Monaco

Monaco, a recent release into ROGERS® broccoli program, has been favored in the Bajío region of Mexico for frozen product. Monaco has shown good development of smooth heads on clean stalks and has the ability to yield on a high level. This variety tends to maintain a small bead size on larger heads which is a characteristic that has appealed to the freezer segment. Monaco has been trialed extensively and may also adapt well to the California and Desert Southwest areas for fresh market use.

T R I A L D A T A	
Approx. Days to Maturity	98 Warm 119 Cool
Average Head Shape & Size	Medium -dome, smooth 5 - 9
Average Plant Height (in.)	24
Location	Salinas Valley, Desert Southwest, Central Mexico (for freezing)
