

## Strong Robust Plant

Mardi Gras

This widely adapted Allsweet hybrid has delivered high yields of uniformly shaped fruit. Under difficult growing conditions this variety's strong vine has been able to support the fruit and not have the bottlenecking seen in other varieties under similar conditions. Thus being able to consistently produce melons in the size range preferred by brokers and retailers. Mardi Gras' superior field holding ability also allows growers to take advantage of market fluctuations.

### TRIAL DATA

<b>Approx. Days to Maturity</b>	88
<b>Average Shape &amp; Weight</b>	Cylindrical, elongated. 21 - 24 lbs.
